June 10 Film and Discussion: A screening of *Healing Voices*, a documentary examining experiences commonly labeled as “psychosis” in society. The film challenges us to rethink our understandings and shifts the conversation to recovery. A panel discussion immediately following the film will include Oryx Cohen of the National Empowerment Center, one of the producers and individuals featured in the film.

June 11 Training: 1-Day Hearing Voices Awareness Training, facilitated by Oryx Cohen of the National Empowerment Center. In this training participants will learn what it is like to hear voices or experience other altered states, and explore ways that we can support people (ourselves and others) who go through these states. Certificates of attendance for continuing education hours will be available. For more information and to register go to: <https://tinyurl.com/WIMAHV>

About us: Wisconsin Milkweed Alliance (WIMA) envisions a transformed culture built on mutual respect in which all people have the right to choose their own paths to healing and wholeness. WIMA programs include Monarch House Peer Run Respite.
