

Built by peers. For peers.

# Empowering Peer Work.

Rex is a software solution that helps peer organizations thrive and grow.

## Key Features

Setup, monitor, track, and report results in real time across all of your peer providers and coaches.

### Engage

Rex allows your peer providers to focus on their peer engagements with pre-built and unlimited assessments. Providers log their work from anywhere in our app.

### Supervise

Supervisors track all of their peer providers, communicate with peer providers about engagements, review and approve payroll, track progress, and stay on top of all of their work.

### Manage

Program administrators load budgets and see spending trends across the entire organization. They also build custom reports, add fields & access data from anywhere.

### Report

Administrators generate reports on demand, create reports, pull invoices, and export results for partners. Data-driven approaches help organizations improve results and grow funding.
